CALIFORNIA PROPOSITION 65 Compliance Statement

California Proposition 65 (also known as the Safe Drinking Water and Toxic Enforcement Act of 1986) refers to the California legislation that was intended by its authors to protect California citizens and the State's drinking water sources from chemicals known to cause cancer, birth defects or other reproductive harm, and to inform citizens about exposures to such chemicals.

A proposition 65 warning means that: 1) The business has tested and evaluated the exposure and has concluded that it exceeds the "no significant risk level"; or 2) the business has chosen to provide a warning based on its knowledge about the presence of a listed chemical without attempting to evaluate the exposure.
(source: <https://www.p65warnings.ca.gov/>)

The Durham Manufacturing Company has chosen to provide a warning based on its knowledge of the presence of one or more of the listed chemicals without evaluating the level of exposure, which may be below the Proposition 65 level of concern.
